Chapter 4. What happens after you change your password.....	6

Chapter 1. Change or reset your password

You can change your password for security reasons or reset it if you forget it. Your Google Account password is used to access many Google products, such as Gmail and YouTube.

Important:

Want to get more out of Google apps at work or school? [Sign up for a Google Workspace trial at no charge](#)

Chapter 2. Change your password

1. Open your [Google Account](#). You might need to sign in.
2. Under 'Security', select **Signing in to Google**.
3. Choose **Password**. You might need to sign in again.
4. Enter your new password, then select **Change password**.

Chapter 3. Reset your password

1. [Follow the steps to recover your account](#). You'll be asked some questions to confirm that it's your account, and an email will be sent to you. If you don't get an email:
 - Check your Spam or Bulk Mail folders.
 - Add `noreply@google.com` to your address book.
 - [To request another email, follow the steps to recover your account](#) .
 - Check all email addresses that you might have used to sign up for or sign in to your account.
2. Choose a password that you haven't already used with this account. [Learn how to create a strong password](#).

Chapter 4. What happens after you change your password

If you change or reset your password, you'll be signed out everywhere except:

- Devices you use to verify that it's you when you sign in.
- Some devices with third-party apps to which you've given account access.
 - [Learn how to remove an app's access to your account.](#)
- Helpful home devices that you've given account access.
 - [Learn how to unlink these devices from your Google Account.](#)
